Health Guarantee & Purchase Contract

The retiring mama is sold to the purchaser on the following conditions:

- The mama has been well cared for in a home environment and has been dewormed. The breeder has followed the recommended vaccination protocol for dogs. The mama is believed to be in good health.
- The purchaser understands and is in agreement that the down payment of \$600.00 to acquire a Kinnickinnic Goldendoodle Mama is NON-REFUNDABLE. Once the buyer picks up the mama, they assume responsibility for the dog and ownership is transferred to them. The adoption fee (remaining balance of \$400 + tax) becomes NON-REFUNDABLE at that time.
- The purchaser is strongly advised to continue vet care for this new pet with their own veterinarian. If the purchaser's veterinarian officially certifies on their stationary that there is a genetic disease detected and verified through testing, which makes the mama unfit for the purchaser's home, the purchaser has the option to contact the breeder within ninety days of the mama's adoption and discuss the breeder accepting the mama back in order to find her a suitable home. The purchaser gives the breeder permission to speak directly with their veterinarian for diagnosis information. Official diagnosis must be emailed or mailed to the breeder. The breeder will not pay expenses incurred in the return of a mama, any veterinary bills occurred by the buyer, nor accept any claim for distress caused by the return.
- The breeder has enquired of the purchaser his or her past experience with dogs and, in particular with this specific breed, and on the basis of the information received is willing to place the mama with the purchaser. The breeder has pointed out to the purchaser the main conditions the breed is prone to and the health schemes followed to reduce the risk of such conditions. Every mama is an individual and the breeder cannot be held responsible should conditions, genetic or otherwise, develop later in life. The breeder is also not responsible for any accidental injuries or lifestyle induced diseases.
- The breeder agrees to have the mama spayed prior to placement in the purchaser's home. The breeder will cover this cost and ensure that the mama has fully recovered from the procedure before new home placement occurs.
- The purchaser agrees that the dog will be kept in appropriate conditions for her welfare and health. She will be fed on a suitable diet for her age and condition and have appropriate exercise. She will receive all necessary veterinary care to maintain her physical good health.
- The dog will be kept under appropriate control and will not be neglected or maltreated in any way. The purchaser attests that he or she has not been banned from keeping a dog or any other animal by any legal court order.
- If circumstances occur where it becomes necessary to re-home the dog, the breeder must first be notified and given an opportunity to take back the dog and find a suitable home for her if a new family or rescue is needed. Any refund is up to breeder discretion and will largely depend on the age of the mama when she is returned to the breeder, how long it takes to find a new home and what rehoming fee, if any, is received by the breeder.

WE DO NOT WANT OUR MAMAS TO END UP IN RESCUE SHELTERS!
