|---|--|
| Referring Veterinarian: Dr Brian Keller | Clinic Name: Countryside Veterinary Clinic (WI) |
| Email: countrysidevet@frontiernet.net | Clinic Address: 1231 N Knowles Ave New Richmond, WI 54017 |
| | Phone: |
| | Fax: |

Patient Information

| | |
|---------------------------------|-------------------------------|
| Client: Rasmussen, Brianna/Adam | Tattoo Num: |
| Patient Name: Max | Patient ID: 16357Maxlo |
| Reg. Name: Maxlo Red Pine Grove | Registration Num: PR20173205 |
| PennHIP Num: 197791 | Microchip Num: 95600009948983 |
| Species: Canine | Breed: STANDARD POODLE |
| Date of Birth: 29 Jun 2017 | Age: 79 months |
| Sex: Male | Weight: 50.8 lbs/23 kgs |
| Date of Study: 19 Jan 2024 | Date Submitted: 19 Jan 2024 |
| Date of Report: 21 Jan 2024 | |

Findings

Distraction Index (DI): Right DI = 0.22, Left DI = 0.26.
 Osteoarthritis (OA): **No radiographic evidence of OA for either hip.**
 Cavitation/Other Findings: No cavitation present.

Interpretation

Distraction Index (DI): The laxity ranking is based on the hip with the greater laxity (larger DI). In this case the DI used is 0.26.
 OA Risk Category: The DI is less than or equal to 0.30. This patient is at minimal risk for hip OA.
 Distraction Index Chart:

BREED STATISTICS: This interpretation is based on a cross-section of 6419 canine patients of the STANDARD POODLE breed in the AIS PennHIP database. The gray strip represents the central 90% range of DIs (0.28 - 0.68) for the breed. The breed average DI is 0.46 (solid square). The patient DI is the solid circle (0.26).

SUMMARY: The degree of laxity (DI = 0.26) ranks the hip within the tightest 5% of DIs for the breed. This amount of hip laxity places the hip at a minimal risk to develop hip OA. **No radiographic evidence of OA for either hip.**

INTERPRETATION AND RECOMMENDATIONS: No OA/Minimal Risk: Unlikely to show radiographic evidence of hip OA; even more unlikely to develop clinical signs of hip dysplasia. **Recommendations:** Normal to strenuous activity is permitted. Keep lean: try to maintain BCS at 5/9 for a longer and healthier life. **Breeding Recommendations:** Please Consult the PennHIP Manual.

COMMENTS:

Thank you for following policy and sending at least 2 Distraction views, as confirmation, when the hips appear tight (less than 0.30 DI).
